CURTAINS

Here at Siangthai & Sons, we only select quality curtains covering a wide range of colors and styles to suit your homes. Curtains, in addition to being a home decorative accessory that not only provides tidiness to your home, also helps to create privacy, sunlight and heat blocking, as well as, an attractive interior. Choosing the right fabrics and designs easily contributes towards creating airiness and a distinct atmosphere.

Siangthai & Sons provide an extensive selection of fabric patterns imported from Europe and the US. We have more than 1,800 beautiful and unique designs to choose from. Every piece of our fabric is specially designed for durability manufactured under high production standards which produces tightly woven materials with long lasting colors. Our customers are guaranteed to be provided with the highest quality products.

SHEERS

Sheer curtains, or sometimes known as “light curtains”, are an extension similar to a window or a link between the home’s interior and exterior. Sheer curtains will reduce the amount of light and also help to shade your room from the morning or evening glares, while still letting sufficient brightness through. The curtains’ translucent property does not allow the room to go completely dark. By just opening the thick curtains while keeping a layer of the sheer curtains closed will enable you to filter out the brightness while still allowing a soft light to enter the room.

Sheer curtains can also be used to create the perfect privacy space within your home. In addition to helping control the brightness and create privacy, it is capable of creating a soft and pleasant atmosphere, or space that do not require much privacy. Choosing the perfect sheer curtain design can be compared to a picture frame that can add class and attractiveness to your window anytime, or anywhere.

UPHOLSTERIES

It is an undeniable fact that every home should be beautifully furnished for its occupants and visitors, and the most indispensable items are furnitures, whether large or small. These can include a large grand sofa in the living room, chairs for the dining table, or even a small stool. Every piece of furniture need upholsteries that are appropriate for their intended purposes, as well as, the attractiveness that will make them stand out.

Here at Siangthai & Sons, we import high quality fabrics for furniture upholsteries from Europe and the US. We have a wide array of weave and individually designed patterns which will be able to create uniqueness for your favorite furniture item. We believe that every piece of furniture has a life of its own, so we design, maintain and repair every piece of your furniture to help preserve its significance and value.

TASSELS

Here at Siangthai & Sons 1952, we pay close attention to every detail when it comes to curtain designs, and tassels are items that we have also never overlooked. Curtain tassels or drapery cords are used to add elegance, beauty, and perfection to the curtains. These include Louis-styled curtains, pleated curtains, blackout curtains, or even sheer curtains. The tassels can also help turn the home's atmosphere into a formal or warm atmosphere to welcome guests, or help diversify it into various moods according to the occupants' requirements.

Curtain tassels are known by many names, such as curtain ties, drapery cords, curtain tiebacks, etc. In addition to having an enchanting design, it goes on to show on how the homeowner is also detail-oriented.

At Siangthai & Sons, we have a wide selection of curtain tassels and styles to choose from, such as finely woven tassels with knobs or crystals made from high quality synthetic fibers, which are not only attractive but also durable.

TRIMMINGS

Unique curtain designs with a difference can also be made with the addition of curtain trimmings. These trimmings can help add more charm to every type of curtain, whether it is pleated curtains, Louis-styled curtains, ribbed curtains, folding curtains, curtain boxes, as well as, tassels. These options can help enhance the attractiveness in more ways that you can think of. Additionally, they can also help to make the home's interior look tidier. Curtain trimmings are also suitable as a decorative item for small or large pieces of furniture, such as wall coverings, headboards, bedspreads, piano covers, including pillows, cushions, chairs, and various other furniture items.

We select the highest quality products, such as only the best thread textures and apply fineness into our weaving process, making our products more durable and non-fading, which sets us apart from other general products that are available in the market. At Siangthai & Sons, we have a wide variety of curtain trimmings to suit every style of curtains.

CORDS

Cords or curtain strings, are also classified as another type of decorative item that will enhance the charm of the window curtains. It not only helps to keep the curtain edges elegant and organized, but can also be used to help align the curtains to the edge of the window in a layer of folds. Additionally, the cord will help to make the curtain pleats appear like a large ornamental frame to the view outside the window. Beautiful cord strands with alternating or contrasting colors can also be wrapped around the curtains to add fascination and charm.

The cords can often be seen in various curtain designs and Louis-styled curtains, where classic luxury designs are needed. At Siangthai & Sons, we have a variety of “twisted cords” or “fancy cords” for you to choose from. All of our twisted cord products are imported and are of premium quality and design. We have a wide selection of sizes to choose from, starting from a small diameter of 1.00 and 1.40 cm., right up to a large 2.00 and 2.40 cm.

BORDERS

At Siangthai & Sons 1952, we refer to this item as “BORDERS”, but generally they may be known by other names, such as curtain strips, curtain tapes, Louis tapes, and so on. Uses of border, other than enhancing the beauty of the curtain frame, they can also act as ‘shields’ or ‘covers’ of unattractive decorative designs. Additionally, it can also be used to enhance the clarity, attractiveness, and uniqueness, of the window outlines and curtain frames. channel to be beautiful and unique In addition to using borders to decorate the curtain frame. Borders are also known to be used as decorative items to highlight furniture pieces, such as cushions or bedspreads.

Every roll of our borders are wholly-imported from Europe, namely Italy, Belgium, and the UK. We have a large variety to choose from, with width ranging from 5, 8, 10, 11, 12, 14, 16, 20, 21, 32 centimeters.

RODS & FINIALS

When installing curtains, curtain rails are indispensable items that are used to attach the curtains to the structure of the home. They are usually installed above the door, window or ceiling edge. Usually, it is preferable to choose a single or a double rail, depending on how they will be used. In addition to various types of curtain rails, here at Siangthai & Sons, we also have various types of “rods and finials” to choose from as well.

From a designer’s perspective, proper placement of curtain rails can help create a balanced space with the help of parallel lines of the curtain rails. The rails, are therefore, elements that can help to alter the wall area, as well as, help suggest the distance and size of the window, or even the width of each wall as well.

TIEBACKS/HOLDBACKS

In the English language, there are two types of “curtain ties”, i.e. tiebacks and holdbacks. The functional benefits of the two items are similar. In Europe, it is widely used for holding back or securing large and heavy curtains into the desired position, such as window blinds, bed curtains, room dividers, and so on. They can differ in shape and material. Most of the curtain holdbacks are usually made of metal or tightly woven threads that resemble curtain tassels. However, the shapes are mostly shorter and more compact and without the tassel knobs. You can view the premium quality genuine brass holdbacks at Siangthai & Sons.

HOOKS

Curtain hooks, are a widely used item from the past to the present. They are popularly used to decorate the curtain fittings and hold the tiebacks. There are various styles to choose from. Stylish patterns can be used in combination with tassels or drapery straps to add a harmonious aesthetic to any curtain set. They are mostly made of genuine brass, with a wide array of specially designed elegant classic designs. They are not only strong and solid, but also durable, light, and not easily broken. You can find a wide variety of options to choose from at Siangthai & Sons 1952.

OTHERS

At Siangthai & Sons 1952, you can find a complete range of classic decorative curtain accessories. Every item has been pre-selected for its quality, attractiveness, elegance, and uniqueness. We also have other home decorative accessories, such as French Louis-styled brass crowns for adorning headboard curtains, authentic brass curtain hooks in various styles for large and extra-high curtain openings.

TAPESTRIES

During the Middle Ages and the Renaissance period, westerners would use hand-woven tapestries, or wall tapestries, to decorate their home walls for beauty, as well as, add warmth to their homes.

Each tapestry would represent the artist's intention to convey the culture and art of that particular era. They were considered as fine work of art comparable to an artist's painting, but substituted with the use of different colored threads and woven together to form a beautiful painting.

Besides being an attractive decorative item, tapestries can also be improve the room's acoustics without the need to modify the building structure or walls, thus saving time and costs. Just having a wall tapestry can easily create a European-style atmosphere in your home décor, and is another product that Siangthai & Sons 1952 is proud to present.

FRAMES/ARTWORKS

At Siangthai & Sons, we also have several art photo frames and prints available, that convey the beauty, sophistication, and fascination, of arts and culture during the Middle Ages and the Renaissance period, for art lovers and classic home decorative styles. They can be displayed on the walls of your home to make it stand out from the crowd.

WINDOW TREATMENTS

WOODEN BLINDS

At Siangthai & Sons 1952, we have a large selection of high quality “wooden blinds” to choose from. You can choose from a wide selection of colors and finishes based according to your desired style. Wooden blinds control the amount of light in the room are easy to install and make the room feel modern, warm and private. Choose dark wood tones to create an atmosphere that is close to nature, or if you like an fresh airy mood, we recommend light tones such as beech wood or white, etc. The blinds are suitable for homes, offices, or general home offices, and standard width sizes range from 25, 35, and 50 mm.

ROMAN BLINDS

Suitable for window openings that are small and not too wide. This type of blind is usually mounted vertically. The blinds is distinctive as the amount of natural light can be controlled by just pulling the rope up and down to open or close the blinds.

VERTICLE BLINDS

This type of blind combines the advantages of pleated curtains and wooden blinds. However, the basic operating structure of this blind consist of a horizontal opening-closing mechanism to control the amount of light. This type of blind is suitable for large and wide window openings, or sliding glass windows, or a glass enclosed room such as a greenhouse. Common vertical blinds sizes are 35 and 50 mm.

ROLLER BLINDS

Roller blinds are considered as the most convenient, quick working, and most economical type of blind, among all other curtain types. Their advantages include being convenience/ quick and easy to use, easy to maintain, and can be widely opened to allow more light into the room when compared to other types of curtains. In addition, the structure of this type of blind uses less storage space.

At Siangthai & Sons 1952, we offer a comprehensive range of services ranging from on-site measurement, design, sewing, right up to supervision of the installation of both the roller and rope blinds, and the electric motors. You can be assured of the quality and the associated services.
